Profile

Software Developer with a passion for creating high-performing and user-friendly applications. Extensive expertise in Flutter, Kotlin, and React Native, with significant experience in designing and deploying scalable mobile solutions. My goal is to transform complex ideas into simple and impactful technological solutions.

Professional Experience

Mobile Developer

08/2024 – 02/2025 | Tunis, Tunisia

Elite Sport Innovation Holding

- Developed a podcast app using Flutter, enabling studio setup, CRUD for episodes, video calls, and live streams, boosting user engagement by 35%. Integrated CI/CD and web sockets for real-time updates.
- Built a digital library app with AI features using Flutter, allowing translation, audio playback, and summaries of books. Added an AI chatbot, enhancing user experience by 40%. Implemented CI/CD for seamless updates.
- Developed a secure messaging application, inspired by WhatsApp but with advanced security, specifically designed for users in Qatar. The app includes SMS and OTP verification, end-to-end encryption, and enhanced authentication protocols, ensuring confidential and secure conversations.

Full Stack Developer Intern

02/2024 – 06/2024 | Tunis, Tunisia

Hydatis

- Developed a Flutter app integrating deep learning models for falsified document detection, improving accuracy by 30%.
- Designed a microservice architecture to enhance API scalability and reliability.
- Implemented CI/CD pipelines, reducing deployment time by 40%.

Technologies: Flutter, Dart, MongoDB, Python, Flask, Figma, Docker.

Mobile Developer Intern

06/2023 – 08/2023 | Tunis, Tunisia

ASQII HealthTech Startup

- Built a real-time sensor-based app using Flutter for temperature and humidity monitoring, enabling instant alerts and reducing response times by 25%.
- Designed a user-friendly interface, improving user satisfaction by 20%.

Technologies: Flutter, Firebase, MySQL, Docker, Dart.

Mobile Developer Intern

01/2022 – 06/2022 | Le Kremlin-Bicêtre, France

Slash Agency

- Developed a real-time inventory management system to optimize warehouse operations, reducing errors by 35%.
- Implemented client management features, enhancing customer relationship workflows by 20%.

Technologies: Flutter, Dart, Django, Figma.

Education

Master's in Computer network and telecommunications

09/2022 – 06/2024

National School of Electronics and Telecommunications of Sfax(ENET'Com)

Bachelor's Degree in web and multimedia development

09/2019 – 06/2022

Higher Institute of Technological Studies of Kairouan

High School Diploma in Experimental Sciences

2019

El alia High School

Skills

Programming Languages: Dart, Kotlin, Java, JavaScript, Python, C#.

Frameworks & Tools: Flutter, React Native, Django, Flask, Expo.

Databases: Firebase, MongoDB, MySQL, PostgreSQL, Oracle Database.

DevOps Tools: Docker, Git, Bitbucket.

Design Tools: Figma, Adobe Illustrator, Adobe XD.

Other Skills: Agile Scrum methodology, CI/CD pipelines.

Projects

Mobile Game – Personal Project

2024

Role: Lead Developer

- Developed an engaging mobile game using Flutter Flame, incorporating animations and responsive controls.
- Enhanced user experience, leading to a 30% increase in active users within the first month.
- Technologies:** Flutter, Dart, Flame

E-commerce Application – Freelance Project

2023

Role: Full Stack Developer

- Built an e-commerce app with payment integration, order tracking, and social media authentication, targeting iOS, Android, and Web platforms.
- Improved user retention by 25% through smooth payment processes and intuitive UI design.
- Technologies:** React Native, Expo, Node.js, MongoDB, PayPal.

Languages

- English: Fluent
- French: Fluent
- Arabic: Native
